DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re Claim 1, lines 4-5, "being operable" is optional language and lacks positive recitation.

Claim 2 recites the limitation "means" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Re Claim 5, recites "operable" and "which is operable" that lacks positive recitation.

Claim 7 also recites "operable".

3. Last Office Action is hereby incorporated by reference.

Response to Arguments

4. Applicant's arguments filed 10/2/06 have been fully considered but they are not persuasive.

Re Claim 1, in response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642

F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

By combining the references, the directional performance of the RF path in Whinnett et al is improved through the use of the beamformer in Hagerman et al. Although, a single beamformer is disclosed in Hagerman et al, one skilled in the art would have incorporated plurality of beamformers into the Whinnett et al to support the plurality of directional paths by the antenna array. Hence, by combining the references, "a plurality of beamformers" ..., "a plurality of directional transmission beams" ... and "to produce space-time encoded transmission beam" as recited in claim is made obvious.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
